Welcome to Servino on Ark Row

The Wine Book is a tribute to Italy's diverse wine growing regions, and to the some of country's most celebrated producers of classical and natural wine. Our collection is a curation of wines that we enjoy at our family table, from the most casual dinners to formal affairs.

We thoughtfully select wines that have a strong sense of place and are best enjoyed with the food on your plate. Like the produce we source for your meals, we strive to find wines that are made from grapes that are grown organically and biodynamically with minimal intervention or manipulation.

Every day, we cherish the relationships with growers, producers, and distributors that we have built over the last 40+ years, which makes it all the more special when we get to showcase their hard work.

Salute!
